Enzymatic Machinery for Endocannabinoid Biosynthesis Associated with Calcium Stores in Glutamatergic Axon Terminals

[Webpage](#)

The Endocannabinoid System Controls Key Epileptogenic Circuits in the Hippocampus

[Webpage](#)

Prevention of plasticity of endocannabinoid signaling inhibits persistent limbic hyperexcitability caused by developmental seizures.

[Webpage](#)

The synaptic vesicle cycle: a cascade of protein-protein interactions

[Document](#)

Synaptic transmission: a bi-directional and self-modifiable form of cell-cell communication.

[Webpage](#)

Presynaptic receptors

[Webpage](#)

25 years since the discovery of presynaptic receptors: present knowledge and future perspectives

[Webpage](#)

Presynaptic inhibition of elicited neurotransmitter release

[Webpage](#)

Presynaptic inhibition of elicited neurotransmitter release
